

## Basic S.A.N.E. Training Adult/Adolescent

### PURPOSE:

This didactic education course is designed to provide RN's with basic education in providing medical forensic care to adults/adolescent patients. This course exceeds the educational guidelines established by the International Association of Forensic Nurses (IAFN) and will present various hands-on educational opportunities as well as skill stations.

### NOTE:

Completion of the didactic course does not qualify a RN to practice as a SANE. In addition to the didactic portion, clinical requirements must be completed in the participant's community. Additional information will be provided during the course.
